

# What is Nobel Biocare?

Nobel Biocare is a Swedish brand. They created the first dental implant and are the world's leader in premium dental implant research.

## Long Term Function

Unique oxidized TiUnite surface maintains high stability through fast bone formation and ensures long term success

## Leading Competitors, Dental Implant and Final Abutment Market U.S., 2014

## Proven Stability

Achieve high initial stability even in compromised bone with enhanced osseointegration and rapid bone formation.

## High Success Even with Compromised Bone

Recommended for patients with more bone resorption because of the better fixture design, especially for the upper arch.

Multi-Unit Resorations

Single-Unit Restorations

Full-Arch Restorations
